A Bed of Darwin Tulips in Solid or Alternating Colors is the Choice of Many

There are a hundred and one ways of working out a color scheme in Darwin Tulips. One very effective planting is to plan a double border along your walk or drive making a ribbon planting with the colors corresponding on each side as lavender, purple, scarlet, yellow, old rose, pink, etc. A large bed of one color is charming, or a very beautiful effect can be obtained by planting a large bed in rows of alternating colors; in fact, there are so many different ideas that can be worked out in color with the Darwin Tulips that one could go on indefinitely along these lines.

The gorgeous Darwins are doubly attractive because of their large solid color blooms and because of their regal height holding their heads securely aloft from the other smaller flowers. They are truly the aristocrats of the Spring garden and for this reason are given the preference over other Tulips for large plantings. We list ten of the best varieties and through our enormous importations are able to price them much more attractively than you would expect. Plan your color scheme, select the varieties you need to work it out and have something unusual next Spring.

PRIDE OF HAARLEM: Bright rose suffused with purple. An enormous flower unsurpassed for groups because of its fine color and stately habit.

CLARA BUTT: Bright shrimp pink, paler edges, perfect bloom of medium height, wide base, mid-season, lasts long. The best pink Darwin.

INGLESOMBE YELLOW: Large clear yellow, solid color without any other markings.

LA TULIPE NOIR: Sometimes known as the famous Black Tulip. Very dark and the nearest of all to a real black. Very distinctive.

PRINCESS ELIZABETH: Large flower, soft rich rose, shading to silvery rose at edges. Inside deep rose white base; one of the best and highly recommended.

BARTIGON: Large flowers. Fine crimson with bright scarlet margin. One of the very best of its color.

PARNECOMBE SANDERS: Fine rose scarlet. Inside vivid cerise scarlet with white center marked blue. Perfectly shaped flowers.

LE NOTRE: Beautiful rose shaded bluish. Extra early variety. Very fine both for bedding and growing indoors.

WILLIAM COPELAND: This is the best Darwin Tulip for growing indoors. The color is a beautiful lavender. It is equally fine for outdoor planting and when grown outside the color is rosy lilac. Plant this variety both indoors and out.

GRETCHEN: A beautiful silvery pale rose changing to light peach pink. Large egg-shaped blooms.

20 for \$1.00 \$4.50 per 100 \$42.50 per 1000

**SPECIAL—6 Each of the above, all labeled, 60 Gorgeous Darwins, (value \$6.00) for only \$2.75.
12 Each, 120 Gorgeous Darwins, only \$5.25**

GORGEOUS DARWINS

SINGLE TULIPS ARE THE FIRST TO BLOOM

Their Colors Are The
Brightest And Gayest
Among The Spring Flowers

With so many kinds and types of Tulips on the market today, it is difficult for the amateur to know just what varieties would be most advantageous. Of the early flowering varieties, the Early Single Tulips are the most satisfactory as they bloom on longer stems than do the very earliest Tulips and the variety of colors and shades is unlimited, ranging from pure white and delicate yellow to all shades of lavender, purple, old rose and orange.

By buying Early Single Tulips in a mixture such as we offer you can have a bed or border that in itself will be a gorgeous symbol of "Spring Personified." Because of our enormous importations we are able to offer you the finest Dutch bulbs in a choice assortment of varieties at the lowest possible cost.

See Illustration on Back Page
20 for \$1.00—\$4.50 per 100

"THE THREE MUSKETEERS" OF THE TULIP FAMILY

Peony, Parrot and
Picotee Tulips
Rare, Unusual, Bizarre

Here are three Tulips seldom listed in Catalogues and very difficult to obtain. We were able this year through our immense importation of the more plentiful sorts to secure a limited quantity of these three rare, unusual and bizarre Tulips and to secure them at a price that enables us to offer them to you at little more than the price of the more common varieties. We know you will be more than pleased with their rare beauty and charm and would suggest that you make a large planting of all three varieties.

PARROT TULIPS

A flower of almost tropical appearance, Parrot Tulips are indeed well named. The petals are long, pointed, twisted and curved and brilliantly colored with red and white, occasionally striped with purple green. A fantastic but beautiful variety.

12 for \$1.00—\$6.50 per 100

PICOTEE TULIPS

A well shaped white Tulip; the edges of the delicately pointed petals shaded with

cided old rose. Picotee Tulips should certainly find a warm welcome in your Garden.

12 for \$1.00—\$6.50 per 100

PEONY TULIPS

This variety is perhaps the most choice of all the Tulips, enormous in size resembling a Peony more than a Tulip and blooming in brilliant reds and yellows. For making a gorgeous display Peony Tulips can not be equalled.

12 for \$1.00—\$6.50 per 100

Be sure to plant "The Three Musketeers" of the Tulip family—PARROT, PICOTEE and PEONY. They are truly rare, unusual and bizarre. They will be a continuous source of pleasure and pride.

EARLY DOUBLE TULIPS ARE AS SHOWY AS THE PEONY

The Flowers Being Very
Large, Full and Double

A large planting of early Double Tulips are truly a wonderful sight for while they have a shorter stem than do the later blooming varieties, their flowers are so large, full and double they are easily mistaken for blooms of the Peony when cut and blooming as they do in such brilliant shades of red, yellow, pink and in white with delicate tints they make a picture that is gorgeous indeed.

Make this picture a reality in your own Flower Garden next Spring by planting a large bed of these wonderful, large-flowering, Double Tulips this Fall, or combine a planting of Early Double and Early Single Tulips in the same bed. They bloom a little later than the Single Tulips but last much longer and by planting the Single and Double Tulips together, the season of flowering is prolonged from two to three weeks making your bed a riot of color for a very long period.

See Illustration On Back Page

20 for \$1.00—\$4.50 per 100

"KEIZERSKROON"

Is Known as "The King
of the Bedding Tulips"

The Keizerskroon is the best known of the Single Tulip family and is commonly called "The King of the Bedding Tulips." The scarlet vel petals are widely outlined with yellow, making a combination of colors that is both vivid and attractive.

If you would like to have a bed of Tulips that will be both showy and gorgeous, you can pick no better variety than the Keizerskroon. The demand for Keizerskroons is always enormous and our supply is not unlimited, so to avoid disappointment, order early.

12 for \$1.00—\$7.50 per 100

A CONCRETE EXAMPLE OF

"QUANTITY AND QUALITY"

100 CHOICE TULIPS

You will hardly find Tulips priced anywhere as low as ONLY \$2.69 per 100 but because of large purchases, we were able to secure from one of the foremost Growers in Holland a quarter million choice Darwin Tulips in mixture that enables us to make this very remarkable offer while the supply lasts.

The bulbs are not quite large enough to be offered as first size but are a good blooming size and will do equally as well planted outdoors in beds as the finest and largest forcing varieties. We heartily recommend this Darwin mixture for large plantings to obtain a gorgeous effect at small cost. You can afford to plant them by the hundreds, by the thousands if you have room, but would suggest your ordering immediately as there are no more obtainable to sell at this price after this one shipment is exhausted. Better order today.

50 for \$1.50 \$2.69 per 100 \$25 per 1000

SEVERAL REASONS WHY YOU SHOULD PLANT IN THE FALL

Fall is Nature's transplanting time as growth activity for the Season is over and it is during this rest period that the plants can be most safely moved from one place to another. The soil is warm and can be easily worked and there is sufficient moisture for transplanting, but the soil is not soggy as it sometimes is in the Spring. The plants can be set out leisurely in the Autumn during September, October and November giving one a long planting Season and the plants set out in the Fall have made some growth during the Autumn, are thoroughly rooted and ready to begin growing in the Spring.

During the Fall, you will also receive more prompt and better service for while Fall is a busy time in the Nursery, it is not comparable in any way to the Spring rush during which period in spite of the Nurseryman's best efforts it is not always possible to give you the quality of service he would like, no matter how intense the effort.

To sum up the advantages of Fall planting, the plants you set out in the Fall are first more nearly dormant than at any other time in the year. There is no delay in preparing your beds or waiting arrival of the plants. They are already in the ground and ready to grow the first warm days in the Spring, and then too, you have more time, your garden work presses less heavily in the Autumn as there are fewer things to be done in both the Flower and Vegetable Garden and as you know, careful and proper planting is a very important part of garden success.

As a final word, we would suggest that you look over your flower beds, your hedges, lawns for Shrubs and Trees and decide right now to do all the planting you possibly can during the pleasant Autumn days when you have the most time to do it and after figuring your needs, that you order as early as possible to give the Nurseryman the proper time to serve you in the very best advantage.

QUESTIONS WE ARE OFTEN ASKED ABOUT TULIPS

WHEN TO PLANT:—This is important. Don't plant too early. The beginning of November is soon enough and at the very latest not before the middle of October for unlike many other bulbs, the Tulips do not gain by early planting as they are inclined to grow too quickly and then to suffer from frost so for this reason, planting is best delayed until, as stated, late in October or in November.

When the bulbs are put in be very careful to plant them deep enough. You can hardly plant them too deeply. They are sometimes planted as deep as ten inches without any harm resulting and should in no case be planted less than four inches deep in the thawing of the ground during the Winter and early Spring will often heave it several inches and if the bulbs are not planted deeply enough, they will be thrown to the surface by these heaves and even though they bloom, they will not bloom nearly as satisfactorily and the bulb will be totally destroyed.

Plant your Tulips carefully, plant them deep with about six inches between the bulbs and Tulips will give you satisfactory returns in beauty of bloom that will move them to repay you for your care in planting.

SHOULD TULIP BULBS BE LEFT IN THE GROUND FROM YEAR TO YEAR?—We cannot answer too emphatically NO to this question. Some bulbs do not mind being left in the ground from year to year. Many are all the better for such treatment, but not the Tulip as they are invariably poorer if they are allowed to remain. They should be dug when the leaves have turned yellow, not before and laid out on the dry surface of the soil.

Do not dig them when the ground is wet, and above all, do not put them out on the surface of the soil on a hot day when the Sun is too strong. Thousands of dollars worth of Tulips are completely spoiled every

year by being allowed to bake under a too hot Sun when a little extra care would have brought them through in perfect condition. After digging and drying, store the bulbs in a dry, cool, airy place until they are wanted again for planting the following Fall.

THE FAMOUS OLD DUTCH BREEDERS ARE FAMILIAR TO EVERYONE

Their Colors are Truly
Royal. Purple and Gold,
Terra Cotta and Buff,
Bronze and Maroon

Blooming late in the Spring, these famous old Dutch Breeders, like the Darwins, grow on tall straight stems but their coloring sets them entirely apart from any other variety of Tulip—royal purple and gold; terra-cotta and buff; bronze, maroon—all colors denoting luxury and wealth. The blooms, too, of the Breeders are immense in size, giving these added prominence in your garden. Planted with the clear brightly colored Darwins, the contrast is without comparison. You should make a large planting of Breeder Tulips this Fall. They have long been a favorite in Holland but are more or less of an innovation in the United States and are still difficult to obtain. At our wholesale prices you can well afford to order all you will want to plant, but the quantity is limited so "if in word to the wise is sufficient", you will not delay sending in your order.

See Illustration on Back Page

15 for \$1.00—\$5.50 per 100

NATURALIZE CROCUS OF MANY COLORS IN YOUR LAWN THIS FALL

They are the
"Heralders of Spring"

You may have beds of Hyacinths, beds and borders of Tulips and Narcissus, but for naturalizing in the lawn—for an added touch of carelessness and beauty—the brilliant little Crocus have no rivals. Peeping through the grass in their many colors before Winter has entirely disappeared, you will get more joy and pleasure out of the blooms of these first small flowers than all of the gorgeous and showy blooms of later Spring could possibly inspire. Spot Crocus bulbs all over your lawn this Fall and next Spring you will be delighted with the result obtained. The little leaves of the Crocus will have died down long before your lawn is ready to be mowed and the bulbs can be left in the ground, blooming year after year, requiring absolutely no attention or care.

25 for \$1.00—\$3.50 per 100

WEATHER
IN THE FALL IS IDEAL
FOR PLANTING

The Tariff Law passed this Summer by Congress has greatly increased the cost of importing all Dutch Bulbs, particularly Tulips, which will add tremendously in most cases to the retail price of all Holland-grown Bulbs. We foresaw this condition with which all importers would be faced this Fall and felt that our Customers who had been educated to buying the finest Dutch Bulbs at a reasonable price would not be inclined to pay the fancy price this increased duty would make necessary if it was not in some way checked or counteracted.

We also felt that it was our duty to our regular Customers who have been buying our Dutch Bulbs from us year after year, to protect them and figure some way out it would be possible to counteract this condition at least to a very large extent. With this in mind while many others were decreasing their importations because of the excessive duty, we increased ours, placing orders with the foremost Dutch Growers for larger stocks than we had ever before handled. This brought us important price concessions which in part offset the additional duty we will be compelled to pay on the arrival of the bulbs from Holland and by cutting our own profits slightly, we are enabled to offer you the finest Dutch Bulbs grown at normally low prices little, if any, higher than in previous years.

We believe, if you will compare prices in this folder with the prices asked by other Catalogue Houses, you will appreciate the exceptional bargains we are offering you this Season and where you heretofore may have ordered by the dozens and by the hundreds, you will this year order by the hundreds and by the thousands and have the greatest display of beautiful Tulips and other Spring Flowers that you have ever had, and that we will continue to have your ever increasing patronage which will well repay us for the additional efforts we have made to give you the finest Holland-grown Stock at the lowest possible prices.

Some of the Most Beautiful Darwin Tulip Displays Are the Large Beds and Borders in a Mixture of Gorgeous Colors

Sometimes the most beautiful floral effects are obtainable by an informal planting without any attempt to arrange colors in a formal effect. This is Nature's way. Go out into the Woods and you will find the wild flowers blooming here and there with no attempt at arrangement of colors and apparently in a very haphazard but a very beautiful manner. You can obtain this same careless but charming effect in a large bed or border of gorgeous Darwin Tulips by planting Darwins in assorted colors.

The fame of our Darwin Tulip Mixture has increased year after year. Every year we double our importations and every year we are sold out and unable to fill late orders. This year we have again greatly increased our importations of Mixed Darwins. The assortment of colors and varieties is unusually fine. We hope to be able to fill every order that comes in but with the Darwins becoming more popular and generally planted every year along with our every increasing reputation of supplying the highest grade bulbs at the lowest possible prices, we cannot guarantee your order will be filled unless you send it immediately.

Growing on tall, straight stems and blooming in a hundred different shades and colors, it is hard to imagine a more beautiful Tulip display than that of a large bed or border in a mixture of all the gorgeous colors in which Darwins are grown. Be sure to have such a bed or border in bloom next Spring. Order in quantities and order early.

25 for \$1.00 \$3.75 per 100 \$35.00 per 1000

LA TULIPE NOIR IS MORE COMMONLY CALLED "THE FAMOUS BLACK TULIP"

Unusual and Beautiful

If you are looking for something odd and unusual—if you want the distinctively different—you have it in this graceful Darwin, La Tulipe Noir. As a background for a bed of Tulips, these velvety maroon-black Darwins add the final touch to the picture, serving to accentuate and emphasize the brilliant hues of the other flowers. Planted by themselves La Tulipe Noir present a very beautiful and outstanding appearance. In this folder, we are pricing these bulbs so that they are within the reach of everyone. Be sure your order includes a goodly number of the famous Black Tulip.

15 for \$1.00—\$6.00 per 100

AMERICAN GROWN NARCISSUS NOW EX- CEL THOSE FORM- ERLY IMPORTED FROM HOLLAND

Supply Still Somewhat
Limited

Hardy Narcissus should have a special place in your planting plans this Fall for at least two reasons.

First, blooming as they do not Easter Time among the first of the early Spring blooming flowers, the beauty of their yellow blooms is particularly attractive, giving promise of the Summer and an abundance of good things to come, so that we cannot well afford to be without them.

Second, the Hardy Narcissus lends itself to planting where no other flowers will do as well; in unimproved in the woods, under trees and along streams. They are also particularly lovely along drives, garden walks, spotted throughout your perennial borders and for general planting wherever a careless effect is desired.

Owing to the embargo against the importation of these bulbs, it is impossible to now get them from Holland, but they are being grown in good quality and quantity in the United States so good bulbs can still be had but naturally at a considerably higher price than we used to pay for the Holland stock as we cannot, of course, compete with Europe in the matter of cheap labor.

However, through large purchases and close pricing we have kept their cost to you down to the absolute minimum so that you can well afford to make large plantings of Hardy Narcissus this Fall if you order them now at our sale prices.

12 for \$1.00—\$6.50 per 100

A Few Dollars Invested in Flowering Shrubs will add Hundreds to a Property's Value

FLOWERING SHRUBS PROVIDE AN INEXPENSIVE METHOD OF BEAUTIFYING THE HOME GROUNDS

HYDRANGEA P. G.

The Beautiful Hydrangeas ARE ONLY 45c EACH

EITHER

HYDRANGEA P. G.

Hydrangea P. G. is probably the most showy and beautiful of the flowering shrubs. It is especially valuable as it has blossoms from early July until frost; first pale green, then white, and gradually turning to deep rose and bronze. You have surely seen these beautiful shrubs and have thought of a spot in your lawn that would be improved with a planting of Hydrangea P. G.

If you would like to have a flowering hedge or border, you can have nothing more hardy or of more outstanding beauty than these Hydrangeas. The plants we offer in this special sale are fine, bushy, two-year-old, field-grown and will certainly please you.

HYDRANGEA A. G.

The massiveness of bloom of these valuable shrubs, and their long blooming season, assures them a place in every grouping where solid white effects are desired.

The flowers are conspicuously white and imposing from July to September. By cutting back to the crown each Spring, the bushes may be kept round and dense at a height of three to five feet. They are excellent for solid low borders or in foundation plantings.

HYDRANGEA A. G.

45c Each - 5 for \$2.00 - 10 for \$3.65

Bloom from April 'Til October

Haven't you often wondered what shrubs to plant to make your home grounds an ever-blooming garden spot from early Spring to late Fall? Everyone has in mind a vivid picture of such a place and has dreamed of making his own home equally beautiful and attractive. This dream can now become a reality at small cost if advantage is taken of the tremendous values offered in this folder.

To help you in making your home this "ever-blooming garden spot" we have arranged a Flowering Shrub Calendar, giving the blooming month of each Shrub from early Spring to late Fall.

BLOOMING SEASON OF THE FLOWERING SHRUBS

DOGWOOD—April
FORSYTHIA—April
HONEY-SUCKLE—May
DEUTZIA—June
SPIREA V. H.—May and June
SYRINGA—May and June
WEIGELA ROSEA—June
WEIGELA VARIEGATED—June
SHOWBERRY—June and July
SPIREA A. W.—July and August
HYDRANGEA P. G.—August and Oct.
ROSE OF SHARON—August and Sept.
HYDRANGEA A. G.—August and Sept.

Why don't you decide right now to make your Home Grounds "an ever-blooming garden spot" making a selection of the Flowering Shrubs you would like to have blooming about your grounds throughout the Season from April to October. Send in your order at once.

Plant the Shrubs this Fall and they will, without any further care or effort on your part, establish themselves and be ready to bloom for you throughout the Spring, Summer and Fall giving you constant bloom for a minimum of labor and expense.

SHRUBS ARE SHIPPED IN OCTOBER AS SOON AS HARDENED BY FROST

The weather man has a very large say as to just when Flowering Shrubs, Trees, and many other plants can be shipped in the Fall as it is sure death to these plants to take them up while they are still making growth.

To be successfully transplanted, we must have cool weather and some frost to check the growth so the plant will become dormant after which it can be safely moved without fear of injury to the plant. This sometimes occurs during exceptional years late in September, but it is more often October before plants are sufficiently dormant to be dug and shipped and it is sometimes quite late in October if we have a warm Fall.

Very often as soon as we have a few cool days, we begin receiving inquiries from our Customers as to when their Shrubs, etc., will be shipped and very often they become extremely uneasy because of what they consider a delay that will be harmful to their plants, but which is only the necessary wait until the plants become sufficiently dormant to stand shipment.

Flowering Shrubs are extremely hardy and can be planted successfully as long as the ground can be worked, so any of these plants ordered will be shipped to you just as soon as weather conditions permit and in ample time for proper planting which will probably be during the month of October.

SPIREA VAN HOUTTEI

SPIREA VAN HOUTTEI

"BRIDAL WREATH"

Spirea Van Houttei is one of the best Shrubs, the grandest of all the Spireas, and probably the most generally planted. Single specimen are beautiful and effective, but it is the massed planting that fairly takes one's breath away with its beauty and charm. A complete fountain of pure white bloom in

May and June. Easy to grow, no Shrub will add so much beauty, at so little cost, as Spirea Van Houttei.

As a Fall Special, we are pricing this great Shrub so low there is absolutely no reason why you should not make a large planting this Fall. Send in your order NOW.

29c Each - 4 for \$1.00 - \$2.50 per Doz.

Beauty from Spring 'Til Fall

Now is the time to plan and plant to insure beautiful grounds from Spring 'til Fall. This is easily arranged for by planting the beautiful Flowering Shrubs to bloom from April 'til October.

There is no sight more beautiful in the Spring than a mass planting of FORSYTHIA laden with their beautiful golden yellow flowers even before the leaves appear on the plant; then, following the FORSYTHIA comes the DOGWOOD, HONEY-SUCKLE, and DEUTZIA with the beautiful SPIREA VAN HOUTTEI, a mass of snow-white bloom in May and June; then, on through May and June, we have the SYRINGA, the WEIGELA ROSEA and WEIGELA VARIEGATED as well as the SNOWBERRY completely covered with its beautiful berries.

Following these comes the SPIREA ANTHONY WATERER; the red SPIREA and one of the most beautiful; then, the ROSE OF SHARON and the HYDRANGEAS. We have arranged a chart on the opposite side of this page giving you the blooming season of the different varieties of Flowering Shrubs. Consult this chart, select the varieties you love the best, plant this Fall and you will be repaid a hundred fold next year in beauty of bloom from Spring 'til Fall.

The plants we offer you are all fine, stocky, two-year-old Shrubs selling regularly at 45c, 50c and up to 75c each, but we have priced them all at a flat special price of 29c each or 10 for \$2.50 so you see you can make a very large planting at very small cost. Planting the beautiful Flowering Shrubs is the most inexpensive method of beautifying the home grounds and adding hundreds to the value of the property.

FALL ORDERS SHOULD BE PLACED EARLY AS POSSIBLE

It will be greatly to your advantage if you will go over this folder carefully as soon as you receive it, select the plants you will want to set out this Fall and send in your order immediately. This will enable us to ship at once the plants ready at the time your order is received and book the balance of the order for shipment at the proper times for planting so you will receive the different classes of plants on your order at the best possible time to plant them for the best results. This will give you the whole Fall season in which to do your planting carefully, at the proper time, and as it should be done.

It will also enable us to give you carefully selected plants, carefully packed and shipped, and spread out our work over the entire season so there will be no last minute rushes during which it is impossible to give you the service to which you are entitled.

If you will stop to think for just a moment, you can readily see the advantage both to you and to us of early ordering. If we have your order in advance of planting time, we know just what to plan for and the quantity needed to fill your orders so we can have in plenty of stock avoiding any shortages at the end of the Season as well as any surplus; planning everything in advance so as to serve you promptly and efficiently.

Your Cooperation in Placing Your Order Just as Early as You Possibly Can Will Be Greatly Appreciated.

APPLE TREES

The Apple has been rightly called "the king of fruits." Unlike other fruits, its period of ripening extends nearly throughout the year and by judicious selection of varieties, an almost constant succession may be obtained.

The varieties we list are all good producers, tried and true varieties, and we can supply the trees in any size or in any quantity you wish. Our Grower's stock of Apple Trees this Fall is particularly fine and to insure a large sale of these fine trees, we have priced them remarkably low about one-half the price usually asked for the same size and grade.

TREES ARE SHIPPED

IN THREE SIZES

ALL ARE 2 TO 3 YEARS OLD

This great block of choice Fruit Trees has been graded in three sizes, X, XX, and XXX, and you will find listed below the approximate sizes of each grade. This sizing applies to all trees except the Peaches, which will grade about one foot shorter than the size given. These trees are all fine, healthy, heavily-rooted stock and as you will notice from the list, of the very best varieties.

You will be surprised and delighted with the Trees after comparison with others that cost twice as much. Choose the Trees you have wanted to plant. Do it now and be sure to mail us your order immediately.

X SIZE—3½ to 5 Ft.
XX SIZE—5 to 6 Ft.
XXX SIZE—6 to 7 Ft.

TREE SHIPMENTS

All trees are shipped direct from our Growers in Geneva, N. Y., by Express f.o.b. point of shipment. The roots are carefully mossed and burlapped and the entire tree is packed to protect from injury in transit. The trees are all first-class stock and guaranteed in every respect to be true to name, up to size and to arrive in perfect condition. In ordering trees, please do not add parcel post charges in your remittance as these large heavily-rooted trees cannot be shipped Parcel Post, but must go by Express.

Catalpas Are Extremely Ornamental

The Catalpa or Umbrella Tree is extremely ornamental; its symmetrical head forming a perfect umbrella shaped top and is exceptionally attractive in pairs on the opposite sides of the walk, drive, entrance or anywhere a balanced effect is desired.

Catalpas of this size, about six feet in height, usually sell at \$2.50 each, but now as a special advertising matter we are making the very special price of \$1.00 each or 2 for only \$1.85, if you order at once. We made this same offer last Spring and were astonished by the results.

Thousands upon thousands of these fine trees were sold so the stock this Fall to go at this price is limited so if you wish to secure fine Catalpas at less than half-price, order at once before the limited stock is disposed of.

\$1.00 Each—2 for \$1.85

IMPRESSIVE AND BEAUTIFUL IN EITHER BEDS OR BORDERS

Bedding Hyacinths Are Very Reasonably Priced

If you do not wish to carry out any particular color scheme but would like to have a large planting of Hyacinths—a bed or border of flowers next spring that will present a gala array of colors—you should buy all names under Bedding Hyacinths. Every bulb is guaranteed to be blooming size and for a large colorful planting they are just the thing.

Very reasonably priced indeed, no higher than last year although the cost in Holland is higher, the duty is higher and the price we ask should be, but we have cut our profit to almost nothing to keep them reasonably priced.

\$1.50 Per Doz. \$10.50 Per 100

Have You a Color Scheme? Work It into Your Hyacinth Bed

Large beds of Hyacinths planted either solidly in one shade of color, or in formal arrangements of separate colors, are very impressive, and add wonderfully to the attractiveness of Spring lawns and garden views. These bulbs differ in no way from our first size mixed sorts, and will give splendid satisfaction. All sure bloomers. Specially priced for bedding purposes.

PINK	BLUE	PURE WHITE
10 for \$1.50	25 for \$3.59	
100 only \$13.50	1000 for \$110	

Use the Largest Named Hyacinths for Indoors

Our Hyacinth Bulbs are the very cream of the stock grown by our specialists in Holland, and are guaranteed to be large, solid, healthy bulbs, which will be sure to bloom profusely for you next Spring and fill your garden with a foretaste of the glory of the coming Summer. The varieties here listed are the very best of all the long list produced in Holland, selected with scrupulous care with the desire to offer our friends the very best of their kind and are especially recommended for indoor flowering. For best results indoors, plant in pots or boxes using ordinary garden soil, any time from September to February. Plant about two inches deep. Water thoroughly and put away in a dark, cool place until signs of growth commence, then bring into the light and heat. For bulb-bloomers, pot early in September, and for a succession of blooms, plant at intervals of about two weeks. To grow in water, place the bulbs in glasses and fill with clean water; leave them in a dark, cool place until the glass is well filled with roots, then bring to light.

GRITRIDE—Deep pink; excellent spike, one of the leaders.
LYNNOCKNEY—Pure white, large; the leading white variety.
GRAND MAITRE—Deep lavender blue, extra large, shaded dark blue.
YELLOW HAMMER—Golden yellow; fine spike and bells; considered the best variety of this color.
LORD BALFOUR—Like rose, dark tinged violet, numerous truss, very early; the best for exhibition purposes.

Each 25c—\$2.35 per Doz.

The Bright, Flamboyant Peony

SOME OF THE MOST BEAUTIFUL ARE THE LEAST EXPENSIVE

No other flower can compare with the Peony for combination of size, brilliancy of color and fragrance. You want Peonies and you want plenty of them and here they are in gorgeous reds, glowing pinks and pure whites—as many as you want at our special price, 3 for \$1.29; 12 for \$4.50. At this price, you can well afford to buy all you have room to plant and there is no question about it, they are beautiful and choice and will add more than you know to the appearance of your home. Plant Peonies liberally.

3 for \$1.29
12 for Only \$4.50

PEONIES In Mixed Colors

12 for Only \$3.85

Now Is the Time to Plant Iris for Spring Bloom

No Planting is More Colorful or Beautiful in the Early Summer Than a Massive Planting of the Newer Iris

You undoubtedly have admired a large bed or border of Hardy Garden Iris in bloom this Spring and will agree with us that it is indeed "A thing of beauty and a joy forever" as no planting is more colorful or beautiful in the early Summer than a massive planting of Garden Iris. Iris has been so improved in variety and color and size of flower that it can hardly be compared with the Iris of years ago. Our field of Iris includes every color and variety obtainable from the deepest purples and lightest blues to beautiful mixtures and combinations of yellow and bluish purples. Plant either a bed or border of our assortment of beautiful Garden Iris and you will have a colorful riot of flowers that will come up year after year without any attention and increase each year in size and beauty. Garden Iris will grow and thrive in almost any soil and any location. Invest at least \$1.00 in an Iris border. Order by the hundred and secure the same gorgeous effect that we illustrate here.

Set plants twelve inches apart and allow them to grow into clumps. In planting keep the top of the rhizome level with the ground, spreading out the fibrous roots and packing the earth around them firmly to hold the plant in place. Give them a good watering when planted, and after a day or two cultivate the soil to prevent evaporation. They will require little further attention. They need not be lifted in the fall, but will come up smiling the following spring and continue to increase and become more beautiful from year to year.

12 for \$1.00 \$7.50 per 100
1000 for Only \$65.00

It's Time to Plant Perennials

You Get Ahead of Next Spring by Planting Perennials Now

The wise gardener saves money and gets ahead of next year's garden season by planting Perennials now. Perennials planted now are ready to start growth during the first few warm days of Spring running into bloom in their natural season during the Spring and Summer. If you wait until next Spring to plant, the blooming season of some of the Perennials will be passed before they are even set out in your garden and those that bloom later will hardly have time to establish themselves in their new beds in time to bloom very profusely or satisfactorily. It is time to plant Perennials now for bloom next Spring.

THE GIANT HIBISCUS

Mammoth Hollyhock Shaped Flowers of the Softest Shades and Colors

A wonderfully improved form of our greatly admired Marshmallow. The mammoth hollyhock-shaped flowers range in color from white to intense crimson, but there is a softness and delicacy to all the shades that make them harmonize with almost any color scheme, obtaining a height of five to six feet with beautiful lacinated foliage and monstrous flowers measuring from six to eight inches across. They are really show plants. Have some of these gorgeous flowers in your garden by all means. Our stock is in assorted colors of the highest quality and are two-year old, blooming size roots.

6 for \$1.00—\$1.85 per Doz.

BETTER HARDY PHLOX

Beautiful Hardy Phlox have been greatly improved of late years. They are much larger, more abundant and more brilliant, while the stalks have been greatly shortened, producing a flower which is truly dazzling in its display of gorgeous colors, in all shades, from early July until frost.

Selection of Phlox our national flower is being generally advocated on account of its colors in which there are good reds, whites and blues, and because it is almost exclusively an American bloom.

We have a wonderful stock of fine, big, husky Phlox, two-year old in a choice mixture of the most brilliant colors, and to dispose of one block of these fine plants, we have priced them particularly low for Fall sales. At this price you should order Phlox in quantities and have a wonderful display of these gorgeous flowers next Summer.

5 for \$1.00—\$2.00 per Doz.

GOLDEN YELLOW COREOPSIS

The Gayest and Most Beautiful of All the Hardy Perennials

This is one of the gayest and most beautiful of all the hardy Perennials. With its rich golden yellow flower, it is a mass of gorgeous bloom from June to October and produces dozens of flowers on a single plant. A dozen Coreopsis will bring more color to the garden than any other one plant and planted with Delphinium the contrasting colors, the yellow of the Coreopsis and the blue of the Delphinium, turn the garden into a veritable bouquet. Coreopsis surely provides both quantity and quality. You should have at least a dozen or more in your garden and to insure that you have them, we have specially priced our fine, two-year old plants.

6 for \$1.00—\$1.85 per Doz.

BEAUTIFUL DELPHINIUM

Delphinium has always been the favorite and most popular of the Perennials. It has no equal in color or form and is the high-light in the perennial border or garden. These plants are the finest and strongest we have ever grown and range in color from deep purple blue to lightest sky blue including mixtures of the different shades. You never have enough blue flowers in your garden. Plant Delphinium liberally.

5 for \$1.00—\$2.00 per Doz.

GOLDEN YELLOW COREOPSIS

JAPANESE IRIS

Are Truly Wonderful Both in Color and Size

The Japanese Iris are truly "wonderful." They combine the staidness of the Lily; the majestic beauty of the Peony, opening into flowers six to ten inches in diameter; the delicacy in coloring of the Orchid, pure white, lavender, pink, dark purple, maroon, violet and plum; the Chrysanthemum in profusion of bloom, one large clump often producing as many as thirty-five to forty bloom stalks; and are truly king in their magnificence. This description may possibly give you a faint idea of the wonders of the Japanese Iris in the garden, but you will have to call on your own imagination to picture their beauty as a cut flower in your home where they will keep from a week to ten days coming out as do the Gladioli until each bud has opened. No garden is up-to-date without these exquisite Japanese Iris. At this special price you should order at least a dozen, if not a hundred.

6 for \$1.00 \$15.00 per 100

Quality Guaranteed

Our Dutch bulbs are specially grown for us by one of the foremost Holland growers, are of the highest quality, blooming size bulbs, guaranteed true to name and to please you.

Your money will be refunded immediately upon return of any bulbs that do not come up in every way to your expectations.

GRAPE HYACINTHS

GRAPE HYACINTHS

NATURALIZED IN THE LAWN ARE DELIGHTFUL

For naturalizing in your lawn, the Grape Hyacinths are delightful. These little blue and purple flowers, blooming in clusters on stems about four inches in height, resemble a miniature inverted bunch of grapes from

which they derive their name. Dotted all over the lawn they vie with the Crocus in adding cheer and warmth to your home. Be sure to plant Grape Hyacinths this fall.

25 for \$1.00 \$3.75 per 100

All Plants Must Reach You in Perfect Condition

This is an absolute guarantee. Our plants are all carefully selected, carefully packed and leave our warehouses in perfect condition and should reach you in this same perfect condition unless delayed or injured in transit in some way. This will in some cases occur and should any plants fail to reach you in first class growing condition for any cause whatsoever, you should return them to us immediately and a replacement will be made with perfect plants.

If it should happen that any plants are received by you in an unsatisfactory condition, don't go ahead and plant them hoping

that they may possibly come through until then when you don't, write us weeks after they are planted asking for replacements as we positively cannot be responsible for growth after the plants are accepted and planted because there are so many things that affect plant growth; such as, soil, climate, weather conditions at the time the plants are set out, and the way they are planted and cared for during the period when they are re-establishing themselves in your beds. Remember, we absolutely guarantee arrival of all plants in perfect growing condition. If not so received, it is your duty to return them immediately for replacement.

THE WISE GARDENER IS BUYING ROSES NOW FOR SPRING DELIVERY

THE REASON WHY

The plants are packed and shipped early in the Spring, insuring prompt delivery of selected plants as soon as the ground can be worked, so they are established and ready to bloom as soon as if planted in the Fall, without the attendant danger of freezing out which is so liable to occur when roses are planted in the Fall and "LAST BUT NOT LEAST"—

\$1.00 MONTHLY ROSE NOW 49c EACH
FINE, BIG TWO TO THREE YEAR OLD PLANTS

Seven years ago we offered our customers an opportunity to purchase two-year-old, field-grown Roses of the dollar grade at 49c each as a special winter advertising leader. The response was so immediate and general that this Great 49c Rose Sale has become an established institution to which our customers look forward and on which they depend to replace and add to their Rose Gardens, at less than half the usual cost. Each year this sale is featured with increasing success. Every year sales have doubled over that

of the preceding year which is pretty conclusive evidence of its popularity. The varieties that are most in demand are the ones we offer in this Great Seventh Annual 49c Rose Sale and if you order NOW, you may have your choice of any of these great Roses for only 49c each. As many as you want or as few as you want. Whether it is one or a thousand, there are no conditions or restrictions. Of course, the more you buy the more you save. They are 49c each. 10 for \$4.75. 100 for \$45.00.

AMERICA—Large, rose-pink, fine shaped flowers, sweetly scented, carried on long stems. Deep glossy green foliage; almost thornless.
AMERICAN BEAUTY—Flowers crimson carmine shaded deep pink, of fine form, substance and size, very fragrant; foliage strong and of good color; growth robust, sending out long, strong and well formed stems.
BETTY—Deliciously fragrant blooms of large size, full and beautiful; exquisite coloring, copper overspread with golden yellow. Strong and vigorous.
COLUMBIA—A fine big rose; perfectly double to the very center of the full flower. A true pink that is enduring; practically thornless.
DBL. WHITE KILLARNEY—A pure white sport from White Killarney but has a much larger bud and many more petals than its parent.
DUCHESS OF WELLINGTON—Long, pointed buds; blooms intense salmon-yellow; flushed crimson, hanging to lighter yellow.
EPOULE DE FRANCE—Rich velvety crimson, center ruby red; large and double. Likes hot weather.
FRANCIS SCOTT KEY—Large crimson buds and blooms of good form, very double; slightly fragrant, good foliage.
FRAU KARL DRUSCHKE—Pure snow-white; long pointed buds; large, full flowers; free and constant. Not very fragrant.
GOLDEN OPHELIA—Deep golden yellow in the center, paling slightly toward the outer petals; of perfect symmetrical form and the plant is a sturdy, stiff-stemmed grower.
GORGEOUS—Flowers are large, full, deep orange-yellow, heavily veined with reddish copper.
GRUSS AN TEPLITZ—Brightest scarlet-crimson and flowering profusely. It grows tall and bushy and is quite hardy, even in cold sections.
HADLEY—Deep velvety crimson, retaining its color in all seasons. Buds well formed; flowers large, full and free, with most delicate fragrance.
HOOSIER BEAUTY—Color glowing, deep crimson with darker shadings. Upright, strong, free, good form and texture. Buds long and slender.
JONKEER J. L. MOCK—Rich carmine changing to bright pink with a silvery reflex. Stems strong and erect.
JULIET—The petals inside are old-gold, and inside vary from rose to crimson. Beautiful in bud and half-open state; always fragrant. A vigorous summer bloomer.
KAISERIN AUGUSTE VICTORIA—Outer petals of flowers creamy white, center petals Naples yellow, large, full and of good form.
KILLARNEY—Bright shell-pink; long pointed buds with large flowers. Very free and perpetual flowering.
KILLARNEY BRILLIANT—Same growth and style as Killarney and, like it, varies considerably in color. In shady weather it is almost deep crimson.
LADY HILLINGTON—Deep orange-yellow; good size; long and pointed bud.
LA FRANCE—Flowers a decided shade of pale pink suffused with a silvery blush, large, full and globular, of good form and substance and pleasantly fragrant.

LOS ANGELES—A luminous flame-pink, toned with coral and shaded with translucent gold at the base of the petals; buds long and pointed which expand into a beautiful and fragrant flower.
MISS LOLITA ARMOUR—Its fragrant blooms develop from well-shaped buds, chrome-yellow at the base, shading to orange and copper hues on reverse of petals.
MME. BUTTERFLY—Flowers a brilliant pink suffused apricot and gold, buds carried on erect stems; foliage and habit of growth unsurpassed.
MME. CAROLINE TESTOUT—Clear, bright satiny pink. The rose that helped make Portland, Oregon, famous.
MME. EDOUARD HERRIOT—Coral-red, shaded with yellow and bright rosy scarlet. Strong with bright green, glossy foliage.
MRS. AARON WARD—Center Indian-yellow with edge primrose; medium-sized flowers, free and full.
MRS. AMBROSE RICARDO—Flowers quite double, of good form, a bright flesh-pink in color overlaid with a delicate tinge of yellow and delightfully fragrant.
OLD GOLD—Vivid reddish-orange, with coppery red and apricot shadings; medium size; semi-double. Strong grower.
OPHELIA—Blooms large in size, full and perfect in form. Attractive light salmon shading to light yellow.
PERSIAN YELLOW—Flowers deep golden yellow, medium size, semi-double and globular in form; growth robust and hardy.
PHARISAER—Rosy white, shaded with salmon; large and full.
PUENIER—Dark pink flowers of full size, and pleasing fragrance, borne singly on stiff, thornless stems.
RADIANCE—Brilliant, rosy opaline-pink. Large, free and of beautiful form with sweet fragrance.
RED RADIANCE—A glowing crimson with all the magnificent qualities of the Radiance.
RICMOND—Scarlet lightly shaded crimson.
ROSE MARIE—This is a grand rose of the very highest merit. Color best described as a bright watermelon red.
SOUVENIR DE CLAUDIUS PERNET—Its color is a definite and lovely snuff-colored yellow deepening in the center and it retains this color indoors and outdoors, in bud and open bloom. Buds are produced on long, stiff stems.
SOUVENIR DE GEORGES PERNET—Very large, blooms of Oriental red, with carmine and yellow shadings. Vigorous in growth.
SUNBURST—Deep cadmium-yellow, with orange-yellow center; large, full and of beautiful form.
TEMPLAR—Clear, even shade of red; medium size. Good all seasons.
THE QUEEN ALEXANDRA ROSE—Faces of petals are vermillion with a deep orange base; reverses are deeply shaded old-gold—a brilliant color combination. Fragrant.
